

Hruthik R Salián

B.Tech Computer Science student

 hruthikrsalián224@gmail.com  +91 8317348295  Mangalore, India  Hruthik R Salián

PROFILE

I am a Computer Science and Engineering student passionate about technology, innovation, and continuous learning. I aim to apply my programming and problem-solving skills to contribute to meaningful projects, collaborate with dynamic teams, and develop efficient solutions that create real-world impact.

EDUCATION

B.Tech in Computer Science and Engineering, 2022 – Present
NMAM Institute of Technology, Nitte
CGPA: 7.61

12th Grade, *Alvas PUC, Moodabidre* 2020 – 2022

10th Grade, *St. Dominic School, Polali, Bantwal, Mangalore* 2020

PROJECTS

Online Job Portal

- Engineered and developed a full-stack recruitment solution over a 3-month period using React.js for the frontend and Spring Boot for the backend.
- Integrated MySQL with optimized queries, reducing data retrieval time by 30%.
- Secured user access by implementing authentication and session control using Spring Security.
- Managed over 200+ mock job applications and implemented real-time filtering features on the platform.

Data Analysis of expense sheet

- Executed data analysis on 12 months of monthly and yearly expense datasets utilizing R, ggplot2, and dplyr.
- Cleaned and preprocessed data from multiple CSV files to ensure data accuracy and consistency.
- Generated 4+ interactive visualizations (bar charts and line graphs) that identified key spending trends and patterns.
- Authored insightful financial reports that highlighted major expense categories and supported better budgeting decisions.

Courses

RELEVANT COURSEWORK

- **Data Structures and Algorithms:** Implemented core data structures (e.g., Hash Tables, Binary Search Trees) in C++ to solve time-sensitive coding challenges.
- **Database Management Systems:** Completed a practical project to design and implement a normalized database schema (e.g., for a library system) using MySQL.
- **Web Technologies:** Explored foundational concepts of the web, focusing on HTTP protocols and modern standards.

- **Object-Oriented Programming:** Applied OOP principles (Inheritance, Polymorphism) using Java and C++.
- **Software Engineering:** Studied Agile methodologies and software development lifecycles (SDLC).
- **Machine Learning (Introductory Level):** Introduced to basic ML models and algorithms (e.g., linear regression).

TECHNICAL SKILLS

Languages

Python, C, Java, R

Web

HTML5, CSS, JavaScript, React.js, REST APIs

Databases

MySQL, basic SQL

Tools

Git, VS Code, Jupyter

Certificates

Full Stack Web Development

- Constructed a simple CRUD-based web application, demonstrating competency in frontend-backend integration and API consumption.
- Acquired hands-on experience in fundamental web technologies, including HTML, CSS, JavaScript, and basic backend concepts.
- Applied design principles focused on creating responsive and user-friendly interfaces.

Python Data Structures & Algorithms + LEETCODE Exercises

- Leveraged knowledge of Python data structures to solve 30+ algorithmic problems on LeetCode.
- Mastered the implementation of common data structure operations and improved proficiency in Python for competitive coding.
- Acquired a solid understanding of data structures including lists, sets, stacks, queues, and trees.

LANGUAGES

- English
- Kannada
- Hindi
- Tulu

INTERESTS

- Problem Solving
- Driving
- Travelling
- Mobile Photography
- Cricket
- Carrom
