Profile Summary

Goal-oriented Computer Science Engineering student with strong foundations in full-stack development, data analysis, and database technologies. Skilled in building scalable web apps and solving real-world problems using modern tools and clean coding practices. Seeking Software Engineering roles to apply technical skills and grow through impactful projects.

Technical Skills

Programming Languages: Python, Java, C, R
Frontend: HTML5, CSS3, JavaScript, React.js
Backend: Spring Boot, REST APIs
Database: MySQL, SQL
Tools: Git, VS Code, Jupyter Notebook
Concepts: OOP, DSA, Agile, DBMS, Web Technologies, Basic Machine Learning

Projects

Online Job Portal | React.js, Spring Boot, MySQL, Spring Security

- Built a secure full-stack platform enabling job posting & application features. Implemented authentication & session security using Spring Security. Optimized database performance to reduce data retrieval time by 30%. Handled 200+ mock job applications with real-time search filtering.

Expense Data Analysis | R, ggplot2, dplyr

- Analyzed 12 months of expense data to identify trends & spending behavior. Automated cleaning scripts improved data consistency by 25%. Created interactive visualizations for financial decision-making.

Education

B.Tech in Computer Science and Engineering – NMAM Institute of Technology (2022 – Present)
CGPA: 7.61 | Expected Graduation: 2026
Relevant Coursework: DSA, DBMS, OOP, Web Tech, SE, ML (Intro)

Certifications

- Full Stack Web Development – Udemy
- Python Data Structures & Algorithms + LeetCode – Udemy

Languages

English, Kannada, Hindi, Tulu

Interests

Problem Solving, Driving, Cricket, Carrom, Mobile Photography, Travelling
